**A EURENCO Company**

Issue n°11 – July 2018

The **VeryOne® Newsletter** has a main objective: to inform our partners about the world of fuels. We gather information on diesel fuels and crude oils and share it with you. We use our dedicated VeryOne® team to provide our customers with value added information on **Fuel additives' use**.

## EURENCO NEWS

### EURENCO announces the creation of its new subsidiary, VeryOne

As of July 1st, EURENCO's fuel additives operations will be managed under a new dedicated subsidiary named VeryOne, wholly-owned by EURENCO.

At a glance, VeryOne focuses on the production, development and sales of products designed to enhance fuel quality.

With long-term expertise improving fuels and our excellent customer service, VeryOne intends to continue our leadership on the 2-EHN diesel fuel additives markets.

Thanks to their international presence with offices in Paris (France), Houston (USA), Canton (China) and a production center in Sorgues (South of France), VeryOne has global reach to support customers. With an extensive storage network and rail fleet, VeryOne can deliver product competitively anywhere in the world, on time with surety of supply.

The fuel additives market is constantly evolving due to factors, like consumption growth, alternate fuels and new regulations. Thus, having a dedicated subsidiary will help EURENCO to meet the new challenges and lead in the market.

*"This new subsidiary will provide us with the operational improvements needed to meet the challenges of a constantly changing business environment and a highly competitive market."* said Pierre-Olivier VIGNAUD, CEO of VeryOne.

Finally, the launch of this new subsidiary will allow the roll-out of future new additives to continue expanding the company's portfolio and be able to position into other markets.

*"The creation of VeryOne will also facilitate partnerships with other market stakeholders and will accelerate the additives business development in line with the EURENCO Group's strategy."* said Dominique GUILLET, CEO of EURENCO.
